

Summarization of the January 16, 2008
Board Committee on Academic and Student Services Committee
Meeting Minutes

The Board Committee on Academic and Student Services met on Wednesday January 16, 2008 to hear staff reports.

Staff Reports:

EVC, Deidra Lewis presented a report that provides an explanation and context for how we will begin reporting our enrollment to the Board. It will tie our enrollment reporting to our mission pillars. It may require many of us to become bilingual or even trilingual with respect to our enrollments because many times we report our enrollments differently to various constituencies: to the Board by mission, to the colleges by Careers dictated by the Peoplesoft system, and to the Illinois Community College Board and the federal government's IPEDS by PCS, as well as to external publics probably by mission.
