Sole Source/Bid Waiver Justification

Below are the following Sole Source/Bid Waiver Criteria. If your purchase meets any of the following criteria, please complete the form and submit to Procurement Services at solesource@ccc.edu

What is a Sole Source Procurement?

A "sole source" procurement can be defined as any contract entered into without a competitive process, based on a justification that only one known source exists or that only one single supplier can fulfill the requirement. Although CCC generally does not permit non-competitive procurements by statute, exceptions are allowed where competition is not feasible. Even though the procurement isn't competed, you still need to maintain a history of the process. It will be especially important for you to document the circumstances and rationale for not competing the solicitation. This form is used for this documentation.

Examples of acceptable exceptions from the competitive procurement process may include (but are not limited to):

- Only one known source exists for supplies of services or products as determined by documented research.
- No other reasonable alternative source exists that meets the CCC requirements.
- Only one source meets the business needs of the CCC (e.g., compatibility, unique feature to meet CCC's business need, etc.)
- Procurement of public utility services.

What's not a Sole Source Procurement?

- A CCC requirement for a particular proprietary product or service does not automatically justify a sole source procurement if there is more than one potential bidder of offeror for that item.
- A CCC preference for a specific brand or name product does not justify a sole source procurement.
- A good's or service's "uniqueness" alone may not qualify the producer or supplier of the good or service as a sole provider.
