RE: FANUC America Certified Education Robot Training Program and Products

Dear Billy McFarland,

This letter is to confirm that the FANUC America Corporation (hereinafter FANUC) Certified Education Training programs and products (including the LR Mate 200iD/4S robot with educational tooling package and MH CERT Program) is an exclusive offer for Wilbur Wright College.

The CERT training platform and instructor certification training provides students and instructors with curriculum and instructional guides. The FANUC CERT program and educational products can only be purchased and distributed solely from AIDEX and is only offered to educational institutions. The sale price offered to your school is significantly discounted from the price that would be offered to a commercial or industrial customer and shows AIDEX and FANUC's commitment to supporting technical education. FANUC offers U.S. based manufacturing that includes robots, CNC, simulation software and product development. The FANUC CERT program and educational products are being provided solely by AIDEX, the exclusive FANUC Education Authorized Reseller for the state of Illinois. We are pleased to be working with AIDEX on this opportunity for Wilbur Wright College.

Respectfully,

FANUC America Corporation
