

Announcement of a Sole Source Purchase

First published Friday August 20, 2021

City Colleges of Chicago intends to award a contract to Laerdal Medical Corporation to provide high fidelity manikins and simulation platform to provide students the skills required to enter the workforce and also meet National Registry, American Heart Association, and CoAEMPS Accreditation standards.

City Colleges has determined that this purchase is only economically available from this source because Laerdal uses Laerdal Sim Junior which meets our needs for a higher fidelity manikin, and the simulation platform is the same as our 3G and the products in the virtual hospital on the 8th floor. In addition, for consistency our staff has been trained and is familiar with the Laerdal LLEP simulation software that must be purchased to run both the medium and high-fidelity manikins. Laerdal will also provide a hands-on experience using the most relevant technology will enhance the learning environment and allow our students a competitive edge upon graduation.
