To Whom It May Concern:

CollegeSource® is the first and the only comprehensive collection of college catalogs worldwide. No other institution or company has a database that is comparable to the more than 163,000 catalogs and over 133 million course descriptions contained in the CollegeSource holdings

Built on this unique database, TES® the Transfer Evaluation System from CollegeSource is also unique. TES is alone, for instance, in its ability to compare any two catalogs (from the same institution) and return all the changes between one edition and the next in great detail or (from different institutions) return potential equivalencies to the screen within seconds!

CollegeSource, Inc. is the sole-source provider of the CollegeSource database which provides unique access for TES to interface with this database.
