CAE Apollo Nursing Sole Source Letter

To Whom It May Concern,

This letter is to certify that CAE Healthcare Inc. is the sole source manufacturer and distributor of the tetherless Apollo Nursing Patient Simulator. Apollo is operated with CAE's proprietary Muse and Maestro software and includes Simulated Clinical Experiences (SCEs), which are exclusive to CAE simulators. Additionally, CAE is the sole source provider of service programs for our simulators. CAE is the only company authorized to honor warranties for our simulators and perform technical services including installation, training, repairs and maintenance.

Sincerely,

A handwritten signature in blue ink that reads "Grace Gagliano".

CAE Apollo Nursing

The Apollo Nursing Patient Simulator has the following unique features:

- Muse operating software
- Maestro operating software
- CAE Physiology, the only well-validated computational model of human physiology in patient simulators, automatically drives realistic patient responses to clinical interventions
- 4 Simulated Clinical Experiences (SCEs):
 - Anaphylaxis
 - Heart Failure with Pulmonary Edema
 - Severe Young Asthmatic
 - Subdural Hematoma
- CPR Monitor window tracks hand position, compression and ventilation rates, compression depth, ventilation volume, and compression-ventilation ratio
- Gastric reservoir supports gavage, lavage, and gastric suction
- Airway reservoir supports suctioning of fluids via tracheostomy
- Subclavian catheter insertion for care and maintenance
- 1.5L internal blood tank supports two simultaneous bleeding sites, three flow rates
- Humeral IO site (left deltoid)
- IM injection site (right deltoid)
