CAE Juno Sole Source Letter

To Whom It May Concern,

This letter is to certify that CAE Healthcare Inc. is the sole source manufacturer of the tetherless CAE Juno Clinical Skills Manikin. Juno is operated with CAE's proprietary Maestro software and includes Simulated Clinical Experiences (SCEs), which are exclusive to CAE simulators. Additionally, CAE is the sole source provider of service programs for our simulators. CAE is the only company authorized to honor warranties for our patient simulators and perform technical services including installation, training, repairs and maintenance.

Sincerely,

A handwritten signature in blue ink that reads "Grace Gagliano".

CAE Juno

The tetherless Juno Clinical Skills Manikin has the following unique features:

- Modular manikin available in 3 configurations: Base, Live, Advanced
- Maestro operating software
- CAE Physiology option, the only well-validated computational model of human physiology in patient simulators, automatically drives realistic patient responses to clinical interventions (optional add-on)
- Simulated Clinical Experiences (SCEs):
 - Chronic heart failure exacerbation
 - Gastrointestinal bleed secondary to esophageal varices
 - Skills validation
 - Asthma management of patient in home care
 - Postoperative care of the patient with complications: pneumonia
 - Suctioning and tracheostomy care with hypoxia
 - Basic assessment of the hip replacement patient
 - Postoperative care of patient with a ruptured diverticulum
 - Seizure disorder and moderate learning disability
 - Dementia and urinary tract infection in a patient with DNR orders
- 6 intramuscular sites (bilateral deltoids, bilateral vastus lateralis, ventrogluteal and dorsogluteal sites)
- Substernal retractions synchronized with chest excursion
- Gender conversion kit (includes male and female chest skin, wigs, genitalia)
