THE CHANCELLOR

REPORTS

that there is a need to purchase pneumatic, hydraulic and programmable controller Training Systems compatible with the courses offered in the Electric/Electronic Industrial Maintenance Program at the Humboldt Park Vocational Education Center (HPVEC); and

that Energy Concepts Inc. provided, installed and maintained the original electric/electronic classroom at HPVEC in the fall of 1994 at a cost of \$110,000.00; and

that the recommended equipment will update and retrofit the existing pneumatic, hydraulic and programmable controller equipment and would raise the classroom instruction to current industrial standards; and

that this equipment is economically procurable from a single source, the original equipment manufacturer.

THE CHANCELLOR

RECOMMENDS

that the Board of Trustees approves the issuance of a purchase order in the total amount of \$26,595.00 to Energy Concepts Inc., 595 Bond Street, Lincolnshire, Illinois, for the Training Systems for the Electric/Electronic Industrial Maintenance Program at Humboldt Park Vocational Education Center as described above.

FINANCIAL

\$26,595.00 -- Education Fund
