County of Cook and State of Illinois

AUG 5 - 1999

STUDENT ACHIEVEMENTS
TRUMAN COLLEGE

THE CHANCELLOR

REPORTS

MATH STUDENTS

that Truman students participated in a recent competition for two-year colleges, sponsored by the American Mathematics Association; and overall, 140 colleges and 4,300 students were involved; and that the 5 top scoring Truman students were: Cesar Abeid, Grodan Raic, Muy Khim, Ralph Lee, and Adrian Mason; and that based on the overall score of these five students, the team ranked seventh in the midwest.

PTK RECOGNITION

that the PTK Nu Lambda Chapter at Truman was recently recognized by the International PTK Hallmark Awards Program for excellence in programs and projects that promote scholarship, leadership, service and fellowship; and that Nu Lambda Chapter was also named a Five-Star Chapter recognizing organizational accomplishments; and that Nu Lambda Chapter will host the regional PTK convention in October 1999.

STUDENT FEEDBACK

that part of the College's continuous improvement plan is to solicit comments, via suggestion boxes, from students, faculty and staff; and that recently a student contributed the following comments: "I have attended many schools and this is the first institution I have encountered that has yet to show the slightest hint of racial bias, indifference, snobbery, and insensitive humor ... and ... I will endeavor to make this experience known ... to all who are concerned with being treated with respect in these days of short-tempered selfishness."

Respectfully submitted:

Wayne D. Watson
Chancellor
