*FCCCC President's Address
To The CCC Board of Trustees
Wednesday, June 4, 1999*

- Good morning, Chairman Dyson, members of the Board, Chancellor Watson, Officers of the District and all others present.
- Council does not meet during the months of May, June, July, and August, and reports presented, if any, during the coming months will be brief.
- Council officers will continue to meet with Academic Affairs representatives on a regular schedule. In addition, officers and committee chairpersons, particularly those heading Committee A and the Educational Initiatives Committee, offer all possible assistance on critical matters that may arise.
- Regarding the Chancellor's Service Learning initiative, his advisory committee on this subject and Vice Chancellor Lewis have done an impressive job of examining the complex issues associated with developing a comprehensive program for the CCC. Together, they have prepared a thoughtful statement laying out the direction in which the College will attempt to move in the coming year. I will ask the Council's Educational Initiatives Committee to study and make a report on this initiative during the Fall semester.

Sincerely,

Sal Attinello
FCCCC President
