REPORTS

THE CHANCELLOR

that the following changes be made in the compensation guidelines approved in Board report #16917 on December 3, 1992. This change is recommended to standardize the enrollment and the hours required for either Load or Overtime, and that the College Presidents and the leadership of Local 1600 have reviewed this proposal's acceptability, and have recommended that it be implemented at the start of the Summer 1999 Term.

1. That TVC and SUN compensation will be treated identically.
2. That every effort will be made to secure an instructor to coordinate the same TVC/SUN course, if offered in the same semester so that the student count can be combined for compensation, with limits prescribed.
3. That all TVC and SUN courses are to be assigned in the following order:
  - a. Faculty - for Load, on a district-wide seniority basis.
  - b. Faculty - for Overtime, on a district-wide seniority basis, to be determined by rotation points and seniority according to the provisions of Article VIII.F.4. Overtime for TVC and SUN courses will start after the twelfth, thirteenth or fifteenth hour, depending on the faculty base load.
  - c. Lecturers - for Stipend only.
4. That the development or revision of TVC and/or SUN courses will be computed at the rate of \$2000 Stipend for each course.
  - a. That the faculty member who has developed or revised a TVC or SUN course shall have the right to coordinate that course for the first academic year it is introduced.
  - b. This entitlement shall constitute an exception to provision 3. above.
5. That the following scale will be used to determine the number of hours credited to the faculty coordinator.
