BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT NO. 508  
County of Cook and State of Illinois

TRANSPORTATION CONSORTIUM MEMBERSHIP  
DALEY COLLEGE

THE CHANCELLOR

REPORTS

that Daley College has been active in providing cooperative training programs related to the transportation industry, including continuing education of 130 employees of METRA, an advanced training program for METRA, 8 employees in metalworking and electronics, freight conductor training for CSX Railroad, and the A.A.S. Degree in Railroad Operations; and

that to further strengthen this academic area, the College has been developing close working relationships with other institutions active in the transportation industry; and

that the Economic Development and Workforce Training division of Daley College has been notified that it will become a member of a Consortium developed by the University of Wisconsin-Madison in conjunction with the United States Department of Transportation which also includes the following institutions:

- Lac Courte Oreilles Ojibwa Community College - Transportation Institute
- Marquette University - The Center of Highway and Traffic Engineering
- Northwestern University - The Transportation Center
- The University of Chicago - Graduate School of Business
- The University of Cincinnati - The Cincinnati Infrastructure Institute
- University of Wisconsin - Milwaukee - The Center for Transportation Studies

that this membership will provide opportunities to develop and provide apprenticeship and other programs in the railroad trades, drawing upon the research and human resources of its Consortium partners and thereby offer excellent job opportunities for local residents and the development of a highly skilled Chicago labor pool in these fields.

Respectfully submitted,

Wayne D. Watson  
Chancellor

THE CHANCELLOR

REPORTS that Daley College has been active in providing cooperative training programs related to the transportation industry, including continuing education of 130 employees of METRA and an advanced training program for METRA, just ending, of 8 employees in metalworking and electronics, and provides freight conductor training for CSX Railroad, and has developed an A.A.S. degree in Railroad Operations; and

that to further strengthen this academic area the college has been developing close working relationships with other institutions active in program development for the transportation industry; and

that the Economic Development and Workforce Training division of Daley College has been notified that it will be a member of a consortium developed by the University of Wisconsin-Madison and operating in conjunction with the United States Department of Transportation which also includes the following institutions:

Northwestern University - The Transportation Center  
University of Wisconsin - Milwaukee - The Center for Transportation Studies  
Marquette University - The Center of Highway and Traffic Engineering  
The University of Cincinnati - The Cincinnati Infrastructure Institute  
The University of Chicago - Graduate School of Business  
Lac Courte Oreilles Ojibwa Community College - Transportation Institute

And that this membership will provide opportunities to develop and provide apprenticeship and other programs in the railroad trades, drawing upon the research and human resources of its consortium partners and thereby contribute to excellent job opportunities for local residents and to the development of a highly skilled Chicago labor pool in these fields.

Respectfully submitted
