BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT 508  
County of Cook and State of Illinois

FACULTY GROUP WINS CHILD DEVELOPMENT GRANT  
TRUMAN COLLEGE

THE CHANCELLOR

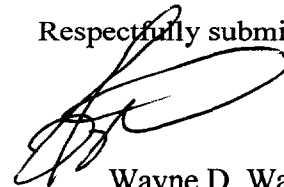

REPORTS that Truman College faculty members Eileen Britain of Child Development, Deborah Terrell of Nursing and Richard Kampwirth of Biology have won a mini-grant from the Erikson Institute for Advanced Study in Child Development; and

that the purpose of the grant is to form interdisciplinary groups of educators to study the academic application of recent research in early brain development; and

that classroom modules on brain development, created from this research, have been provided by the Erikson Institute and will be tested in a variety of courses at Truman, including Pediatric Nursing, Bio-Psychology, Human Growth and Development, and Language Development; and

that the faculty team is integrating the new material into course syllabi for the fall semester.

Respectfully submitted,

Wayne D. Watson  
Chancellor
