BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT NO. 508  
County of Cook and State of Illinois

DENTAL HYGIENE PROGRAM  
KENNEDY-KING COLLEGE

THE CHANCELLOR

REPORTS

that the Dental Hygiene Program at Kennedy-King College has established community outreach rotations with Illinois Masonic Hospital and St. Basil's Health Service Free People's Clinic to provide valuable experiences for the dental hygiene students while providing valuable health care for the community.

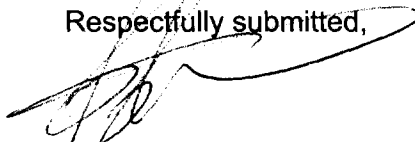

ILLINOIS MASONIC HOSPITAL, DEPARTMENT OF DENTISTRY

The goal of the rotation is to provide second year dental hygiene students with experiences in hospital dentistry. The dental hygiene students will participate in a variety of activities which include, but are not limited to observation of dental procedures in the operating room, observation of patient care rendered under IV sedation, assisting the doctors and residents with dental procedures, provision of preventive services - such as, prophylaxis, scaling and root planning, fluoride treatment and dental health education of clinic patients. As the preceptor, the Hospital Clinic staff will include the dental hygiene students in the learning process, provide education experiences (without compromising any aspects of patient care) and complete a short, one-page evaluation form which confirms their attendance.

ST. BASIL'S HEALTH SERVICE FREE PEOPLE'S CLINIC

The goal of of the rotation is to provide second year dental hygiene students with experiences in dental care for the underserved population in the Englewood community and heighten their awareness of professional volunteerism the staff can provide. The dental hygiene students will participate in a variety of activities which include, but are not limited to patient screening and assessment, provision of preventive services - such as, prophylaxis, scaling and root planning, fluoride treatment and dental health education of clinic patients.

Respectfully submitted,

Wayne D. Watson  
Chancellor
