BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT 508
County of Cook and State of Illinois

CISCO EXCEL HIGH SCHOOL TOURS
TRUMAN COLLEGE

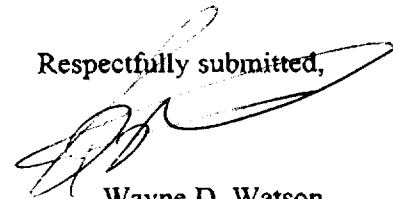

THE CHANCELLOR

REPORTS that students from Roosevelt and Senn high schools toured Truman College recently as part of a recruitment effort for the college's High School Cisco Excel program; and

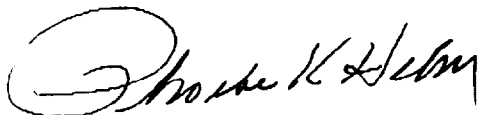

that the Cisco Excel program allows students to receive dual credit at both the high school and college levels in the growing field of technology, leading to certification in computer network creation and administration; and

that since the tours, several students from both high schools have enrolled in the program and plans are in the works to offer similar tours to other area high schools.

Respectfully submitted,

Wayne D. Watson
Chancellor
