BOARD OF TRUSTEES COLLEGE DISTRICT NO. 508
County of Cook and State of Illinois

WRIGHT COLLEGE ENVIRONMENTAL TECHNOLOGY
CONTRACT WITH CTA

THE CHANCELLOR

REPORTS

that the Wright College Environmental Technology Program has, once again, been awarded by competitive bid a contract with the Chicago Transit Authority (CTA) to supply Hazardous Material Emergency Response Training for a period of two years. This is the third time this contract has been awarded to WWC ETP. The value of this contract is \$100,000.

This contract award represents continued confidence on the part of the CTA in the Wright College Environmental Technology Program. Prior to this contract we have provided individual classes in confined space entry and other hazardous materials topics.

The goal of this training in the past has been to prepare CTA employees working with hazardous materials to handle them in a safe manner for the protection of themselves and the rest of the CTA staff, the public, as well as the communities where their facilities are located. Since the 9/11 Homeland Security Preparedness has been added to the learning objectives of the program.

Respectfully submitted,

Wayne Watson
Chancellor
