BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT NO.  
County of Cook and State of Illinois

DESIGN-BUILD SERVICES  
FOR ADDITIONAL ELECTRICAL POWER  
SEVENTH FLOOR DATA CENTER  
DISTRICT OFFICE

THE CHANCELLOR

REPORTS that additional electrical power is needed for the District Office 7<sup>th</sup> floor data center to serve new servers planned to be installed as part of the PeopleSoft Enterprise Infrastructure project; and

that in order to accommodate OIT's schedule in a timely and cost effective manner, District Office staff prepared and issued requests for proposals to three engineering firms for the required electrical work, results of which follow:

\$18,847	ESD	(Certified MBE)
\$19,388	Primera	(Certified MBE)
No Bid	Globetrotters	(Certified MBE)

that, after the RFPs were received, the scope of work had changed to accommodate additional PeopleSoft equipment and District office staff obtained revised proposals from ESD amounting to \$43,900.00 and from Primera amounting to \$46,000; and

that District Office staff has determined that it is in the best interests of CCC to hire ESD as the Design-Builder and that ESD's revised fee proposal of \$43,900.00 for the required services is reasonable and within related industry standards.

THE CHANCELLOR

RECOMMENDS that the Board of Trustees authorizes the Chairman to enter into a contract with ESD, Chicago, for Design-Build services to provide additional electrical power for the District Office seventh floor data center in the amount of \$43,900.00.

FINANCIAL \$43,900.00 - 1999 General Obligation Bond - OIT Enterprise Project

Respectfully submitted:

Wayne D. Watson  
Chancellor
