BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT NO. 508
County of Cook and State of Illinois

City Colleges of Chicago Agreement with Xap Corporation
For ISAC's College Zone- Illinois Mentor

THE CHANCELLOR

REPORTS

The Illinois Student Assistance Commission (ISAC) and the Illinois Board of Higher Education (IBHE) intend to work with all Illinois two and four year colleges to offer an online admission application process in addition to allowing students to submit the necessary transcripts.

Through ISAC's College Zone Program, in which City Colleges of Chicago participates, the Illinois Mentor Website will be developed to provide students and their families an interactive source for applications, financial aid, career guidance, as well as the capability to track academic data. Illinois Mentor is meant as a supplemental service in addition to whatever each college has developed.

To encourage the participation of all Illinois Schools, ISAC has contracted with Xap Corporation to act as the system provider to establish and maintain the private, secure website (System) to facilitate the application process. CCC is asked to execute the Agreement provided by ISAC and allow one or more links to the Illinois Mentor Website.

There is no financial obligation to ISAC or Xap Corporation for this service. ISAC has underwritten the development and design of the application and website and assumed the transaction and maintenance fees. Upon execution, the term shall commence and continue as long as Xap operates the System and requires a prior notice of one hundred twenty (120) days for termination.

THE CHANCELLOR

RECOMMENDS

that the Board of Trustees authorizes the Chairman to execute the Agreement with Xap Corporation to initiate the development of the Illinois Mentor Website.

FINANCIAL

None at this time

Respectfully Submitted,
