

BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT NO. 508
County of Cook and State of Illinois

CONFERENCE AIMS TO ATTRACT WOMEN TO NANOTECHNOLOGY
TRUMAN COLLEGE

THE CHANCELLOR

REPORTS that the Truman College Department of Biology and Biotechnology's Center for Science Success presented *Women in Nanotechnology: Careers and Jobs in Nanotechnology* October 19, sponsored by Women in Nanotechnology, a joint program of the US Department of Labor, Truman College, the College of DuPage and the University of Illinois-Chicago (UIC); and

that nanotechnology is the science of building machines from single atoms and molecules, technology currently used in biotechnology, pharmaceuticals, optical electronics, information storage, and manufacturing; and

that salaries in the field range from \$86,000 for those with bachelor's degrees to more than \$100,000 for those with doctorates or MDs.

Respectfully submitted,

Wayne D. Watson
Chancellor
