

**SUMMARIZATION OF THE JANUARY 3, 2007
HUMAN RESOURCES SERVICES COMMITTEE MINUTES**

Benefits Activity:

There was an increase of 7.8% in benefits costs in November compared to November of last year. A decrease in PPO administrative fees and dental claims was offset by increases in medical and vision claims, and increases in Humana HMO premiums.

Open Enrollment was conducted between November 30 and December 13. There was a 56% increase of enrollees in the PPO plan compared to last year; 120 employees enrolled in the new HMO IL. There are also more employees enrolled in dental and vision coverage.

Other Business:

City Colleges of Chicago participated in the subcommittee meetings of the Joint Task Force on the College Insurance Program (CIP) held on December 6 and 15 to discuss the financial impact of CCC's entry into CIP. Additional financial information will be provided to the full committee on January 12, 2007.

This concludes my report.
