Chairman Tyree motioned to accept all committee reports from the January 16, 2008 meeting. Motion carried.

Chair James Tyree called the Board Committee meeting on Human Resources to order at 11:00 a.m. During the meeting it was reported that:

As I mentioned last month, my report will focus on three components which reflect our core business in HR: 1) Cost control of administrative expenses; 2) Attract, hire and retain the best workforce; and 3) Compliance with laws, policies and board rules.

**HUMAN RESOURCES (CONT'D.)**

**Cost Controls**

The year-to-date decrease in benefits costs is 1.5%, which reflects seven months into the new fiscal year. Life insurance and participation in the City Agency Health Coalition continue to contribute to the cost savings.

We continue to administer Unemployment Claims on behalf of CCC. To that end we have reduced payouts by 26.2% at the end of FY 2007, saving approximately \$175,000. Our trend data is suggesting further reductions for this fiscal year.

**Workforce Development**

With respect to the Employer Assisted Housing Program for FY 2008, there have been seven closings totaling \$21,000. Notification was sent to employees to announce the Home Buyer workshop scheduled for March 6 at Harold Washington College.

Training is an important dimension to ensure that our business processes are not compromised. We continue to train field personnel in all aspects of HR business transactions. This month we addressed the hiring process at each of our seven colleges.

Additional training was conducted by our EEO Officer for approximately 72 employees at Olive-Harvey College on Title VII issues.

We have embarked on the Presidential searches for Malcolm X and Truman Colleges. To date the positions have been posted on line, the committee members identified, and the kick off meeting scheduled for March 7.

**Compliance**

Ethics Compliance training is ongoing. In working with Bernetta Bush, our new Ethics Officer, we have reduced our non-compliance number from 2.4% for 2006 to 0.7% in 2007.

Off-cycle check payments were up for this month in comparison to this time last year. Our error ratio for the month was 1.09%. The APA industry standard is 0.9%. We deployed Payroll personnel to the college to help resolve payroll issues and to train staff.

28547 **ACADEMIC AFFAIRS AND STUDENT SERVICES**

The Board Committee on Academic and Student Services met on Thursday March 6, 2008 to hear staff reports

1. Trustee Tyson motioned for approval of February 7, 2008 minutes of the Board Committee on Academic and Student Services and the minutes were approved by unanimous vote.

**ACADEMIC AFFAIRS AND STUDENT SERVICES (CONT'D.)**

**2. Staff reports:**

President Clyde El-Amin reported that the associate degree nursing program at Kennedy-King College will begin admitting students for the Fall 2008 term.

EVC, Deidra Lewis, introduced a presentation on the Enrollment Goals Analysis. Continuing the implementation of Vision 2011, and in preparation for the development of the FY 2009 College Budgets and Annual Plans, each College President was asked to review key factors related to enrollment for each mission pillar area: Baccalaureate/Transfer Workforce Development, Adult Education, and Continuing Education.

These factors include strengths, challenges, needs, and the impact of new programs and initiatives. The colleges then used this information to help determine the optimal college enrollment goals for each mission pillar for the next three years (FY2009-FY2011).

The College Presidents then presented enrollment strategies and new areas for program development.

**28548 FINANCE, OFFICE OF INFORMATION TECHNOLOGY, AND ADMINISTRATIVES**

Many different issues in the newly upgraded financial system have given the District challenges during December through March.**

**For each of the vendor payments listed for ratification on Board Report 6A, the Finance Office reviewed written explanations from the responsible officers and issued written notice of board rule violation. All incidents were referred to internal audit. Furthermore, the Chancellor mandated a district wide Administrators meeting to re-train executives and managers on Board procurement rules. Since then, the Chancellor required colleges and departments to search for any other potential unpaid vendors, an additional eleven plus vendors emerged and are included in board report for this meeting. Vice Chancellor John Dozier reported the following to the board:

**Office of OIT Report:**

**Board Reports:**

4B - An agreement with Recall Total Information Management, Inc. for off-site data storage. The term of the agreement is for the period April 1, 2008 through March 31, 2011 at an annual cost not to exceed \$15,000 or total cost not to exceed \$45,000 for the three year period.

The Office of Information Technology is currently involved in a number of applications projects that we have been reporting the progress against for the last few months. As it has been reported, we completed the PeopleSoft Finance system upgrade from version 7.5 to version 8.9 in November. The project was completed using primarily core IT staff (versus a project team). There were a number of challenges related to the data conversion and working through business process changes that either required us to change our processes or modify the system to accommodate our processes (e.g., taking our service POs and moving from a two way match to a three way match). Last month, we applied a new patch to the finance system. We are continuing to work through our issues log and have one major issue remaining. The issue involves new POs that were created prior to our applying the patch. The Finance office is currently working with the Executive Business Directors to establish a process for canceling those POs and creating new ones to expedite payment to our vendors.

Last month, we completed the planning of phase 2 of our PeopleSoft Finance system upgrade. This month we plan to begin phase 2 that will include the implementation of the Assets and Grants Management modules. A project team will be working with our core team and the project is expected to be completed by July 31, 2008.

The HR upgrade to version 9.0 is running on time and on budget.

We are experiencing some challenges related to the Data Migration and Reporting project that will facilitate the retirement of SPAS. The challenges involve the re-hosting of approximately 6000 files from the systems currently hosted by Axiom. These files may never be used and therefore are not being converted to Oracle databases. However, it is historical data to which we should always have access.

To ensure that this project is completed on time we are adding resources to the project team that will help us in the re-hosting effort. We are also adding resources to the project team to help us generate ICCB reports. With these changes the project is on-track and we fully anticipate retiring SPAS by June 30.

The migration to Groupwise as our email application is complete. And, yesterday we launched the OIT website through which you will be able to monitor our progress of all OIT projects.

**Office of OIT Report: (CONT'D.)**

Last month, we also completed the reevaluation of our Roadmap to Fusion with Oracle. We anticipated having a presentation ready for you this month, but we are still working with our user communities to finalize the documentation. We will present the new Roadmap next month.

Associate Vice Chancellor Diane Minor reported the following to the board:

**Office of Administrative Services Report:**

**Board Reports**

- **6B - Emergency Fire Alarm Work for Malcolm X - The Fire Alarm Annunciator Panel needed immediate replacement to ensure the continued health and safety of Malcolm X's students and faculty. In accordance with the Board's Operations Policy, three quotes were sought, notification was made to the Board Chairman of the emergency need and we proceeded with the replacement with the lowest responsive bidder, Alliance Systems for an amount of \$11,870. Review of the Minority and Women Owned Businesses Directories did not include any certified businesses to perform this work. The job has been successfully completed.**
- **6C - Purchase of Various Manufacturing/Technology Equipment for Wright's Humboldt Park Vocational Education Center - Various manufacturing equipment was needed to update the program at Humboldt Park Vocational Education Center to meet the requirements for NIMS Certification. The equipment also has the concurrence of the Renaissance Manufacturing Council. Equipment was competitively solicited through the District's Procurement Services.**

**Second Quarter FY2008 Minority and Women-Owned Business Enterprise Participation**

From October through December, 2007 the District reached utilization levels of 32% for MBE's and 3.2% for Women-owned Businesses, the second quarter where WBE's have increased substantially over their participation last year.

The adjusted total of expenditures for the quarter was \$14,020,589, with minority businesses receiving \$4,488,760 and WBE's receiving \$442,010. Local businesses received approximately 38% of the dollars spent.

Project Updates

▪ **New Kennedy-King Campus**

Punch List items have been steadily coming down, from the original 3,900 to just five as of Wednesday, March 5<sup>th</sup>. The District was holding close to \$14 million in payouts and released this week a \$10 million payment for work performed by McClier's subcontractors. It is anticipated by the April Board Meeting to have a final closeout report on this construction project.

Administrative Services is working with the Illinois Community College System Purchasing Council's (ICCSPC) JOC contractor, Centennial, to complete additional classroom build-outs to complement the curricula and Kennedy-King's music programs well as complete the state of art Conference Center and restaurant.

▪ **Old Kennedy-King Campus**

Repeated inquiries to the City's Planning and Development Department has not rendered a decision on the boarded facility. City Colleges is maintaining building security and systems. There have been no reported break-ins since last month since the Police Department's 7th District completed a walk-through of the property with staff and added additional evening and night patrols to work along side Kennedy-King's in-house staff and the canine force.

▪ **Truman Student Services and Parking Facility**

City Colleges and the Chicago Transit Authority submitted to the City Council Zoning Committee on March 5<sup>th</sup> the application to amend the current approved zoning for the parcels surrounding the proposed structure of 1,138 parking spaces and 75,000 square feet for student services. As required by City Ordinance, Truman College will be hosting the requisite Public Hearing for Community input in the upcoming weeks. Truman's President Walker and Alderman Schiller will notify the District of the date.

▪ **Daley College West Side Technical Institute**

In January a Board Report was awarded for new signage at West Side Tech due to the renaming of that facility. Tonight Daley College is hosting the dedication of the building in honor of Arturo Velasquez at 5:30 P.M.

The meeting was adjourned at 11:20 am.
