**REPORTS**

that on Saturday, June 28, 2008, over 50 Adult Education students and staff attended the Rainbow/PUSH Coalition 37<sup>th</sup> Annual Conference kick-off ceremony and live broadcast. The student attendance at this event was significant in that the global issues discussed at the kick-off ceremony are in alignment with the high quality, globally competitive, and student centered curricula offered to the diverse Adult Education student population at Malcolm X College. Educational forums of this type provide students with the opportunity to receive information and history lessons that transition into engaging classroom discussions and quality essays written by students that provide reflective feedback and evidence of student learning outcomes. On Sunday, June 29, 2008, in the Chicago Tribune Metro Section, reporter Lisa Black made mention of the Malcolm X College Adult Education students presence at this historic event.
