

BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT NO. 508
County of Cook and State of Illinois

CAR DEALERS DONATE TECHNOLOGY, EQUIPMENT
TRUMAN COLLEGE

THE CHANCELLOR

REPORTS that Chrysler, Ford, General Motors, Toyota, and Hyundai continue to support the Automotive Technology program, recently by donating a year's worth of on-line technical service information; and

that these web sites are the original equipment manufacturers' (OEM) way of providing repair, service, and training information to dealership technicians; and

that longtime Truman supporter the Bosch Corporation recently donated an MTS 5100 high-speed, four-channel digital oscilloscope to be used primarily by students in the four-year degree program offered at Truman by Southern Illinois University; and

that all these donations allow students to work on the latest equipment and train in the latest techniques, making them highly marketable.

Respectfully submitted,

Wayne D. Watson
Chancellor
