**OLIVE-HARVEY COLLEGE HOSTS BLOOD DRIVE**

**THE CHANCELLOR**

**REPORTS** that to answer the call for much needed blood products, Olive-Harvey College hosted a blood drive for all students and staff on Thursday, January 24, 2008. The blood drive was conducted by LifeSource, a nonprofit blood services organization. The current inventory of Rh negative blood types O- and B- is poised at critically low levels in the Chicagoland area. Over 50 individuals participated in the blood drive. LifeSource was able to collect approximately 10 units of blood that will eventually save several lives.

Respectfully submitted,

Wayne D. Watson  
Chancellor
