

BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT NO.508
County of Cook and State of Illinois

STUDENTS PARTICIPATE IN AMERICAN KIDNEY FUND HEALTH FAIR
PHYSICIAN ASSISTANT PROGRAM
MALCOLM X COLLEGE

THE CHANCELLOR

REPORTS

that the Malcolm X College Physician Assistant Program participated in the Minority Health Programs American Kidney Fund Health Fair held on both Sunday, October 18, 2009 and Thursday, October 22, 2009. Six (6) students volunteered to perform urine and blood pressure testing for the health fair attendees. The students of the Physician Assistant Program also used their didactic and clinical education to teach and train underserved populations about the issues of the day, like H1N1 influenza. In this way Malcolm X College students were able to contribute to the needs of the medically underserved while gaining valuable experience and training.

FURTHER

that with the encouragement, advice and support of President Ghingo Brooks, Vice-President Darrylinn Todd, and Dean Michael Gorman of Malcolm X College, the students of the Physician Assistant Program regularly attend community health fairs. The students' attendance at health fairs not only help the community, but demonstrates the students' commitment to the mission of Malcolm X College.

Respectfully submitted,

Deidra J. Lewis
Interim Chancellor

December 3, 2009
