Earlier in the fiscal year, an additional group of Daley GED graduates were recognized at the college's October 24, 2008 GED graduation. Approximately 8% of the college's credit enrollment is comprised of students who have first completed GED studies and/or English as a Second Language studies through the Adult Education division.

that due to the large number of graduates, the program offers two GED graduation ceremonies each year. In the program's twenty-three year history, more than 4,350 graduates have now successfully completed the official GED examination with assistance through the Adult Education Program at Richard J.
