

BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT NO. 508
County of Cook and State of Illinois

NEW BUILDING TO BE “GREENER” THAN EXPECTED
TRUMAN COLLEGE

THE CHANCELLOR

REPORTS that the new Larry McKeon Administrative Building will attain a higher environmental certification than anticipated; and

that while the college expected a basic certification through the Leadership in Energy and Environmental Design (LEED) system of the US Green Building Council, the building will actually be certified at the next highest level, Silver; and

that this is due, in part, to better water and energy efficiency, better storm water management, and the use of paint and carpeting that will give off little or no chemical odor.

Respectfully submitted,

Wayne D. Watson
Chancellor
