**REPORTS**

that Malcolm X College mathematics faculty Hope Essien was selected by the International Conference on Technology in Collegiate Mathematics to present his workshop on mathematics pedagogy titled, “Enhancing the T (Technology) in Mathematics to Contextualize Student Learning Outcomes”. On March 13, 2010, the session, presented by Mr. Essien targeted faculty and administrators interested in describing a ground-breaking program that combines contextual learning and student collaboration. The faculty member described how the methodology has increased student learning outcomes, enrollment, and retention of developmental mathematics students.

Respectfully submitted,

Cheryl L. Hyman  
Chancellor
