**BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT NO. 508  
County of Cook and State of Illinois**

**PROFESSOR PRESENTS NUCLEAR SPECTROSCOPY WORKSHOP  
TRUMAN COLLEGE**

**THE CHANCELLOR**

**REPORTS** that Chemistry assistant professor Charles Abrams presented a free hands-on training session on the use of Nuclear Magnetic Resonance (NMR) spectroscopy in research February 12 in the Chemistry Studio Classroom at Truman; and

that the session, for CCC faculty, students, and staff, included hands-on experience preparing samples, running Truman's Anasazi 60 MHz spectrometer, and analyzing the data; and

that in January, Abrams presented at the "iMATHination" conference for the GEAR-UP Alliance, showing teachers how to help students better understand the role of math in chemistry classes.

Respectfully submitted,

Deidra J. Lewis  
Interim Chancellor
