Finance Committee Report October 2011 Board Meeting Thursday, October 6, 2011

31200 APPROVED – BOARD OF TRUSTEES COMMUNITY COLLEGE DISTRICT NO. 508 NOVEMBER 3, 2011

TREASURY:

The operating cash balance as of August 31, 2011 is \$158,381,275 which is more than the \$87 million required by the District's investment policy.

The Working Cash, Short-Term Operating and OPEB portfolios underperformed their respective benchmarks for the month of August due to the flight to quality that makes the returns on treasury higher. The returns of the Working Cash, Short-Term Operating portfolios have outperformed their respective benchmarks on a year-to-date and since inception basis; while the OPEB portfolio's performance has been in line with its benchmark.

The PFM investment strategy will continue to focus on maintaining the safety of the invested principal and achieving the long term objectives of preserving safe, well diversified and high quality portfolios.

Account balances as of September 30, 2011:

PFM Prime Money Market Fund Account - \$8,398,411 with a yield of 0.12%

J.P. Morgan Chase Savings - \$74,049,386 with a yield of 0.26%

Other Treasury Activity:

- A RFP for electronic safes and armored car services was issued October 3rd. The successful vendor will install electronic safes at the seven colleges and cash deposit totals will be transmitted to JPMorgan Chase with funds available the next business day.
- The ACH transmission file for student refunds has been successfully automated. The first "life" file will be transmitted to Chase the week of October 3rd. OIT and Chase continue to work to automate the positive pay and account reconciliation files.

| August FY10 | | | | | | | |
| 2,924 | 2,608 | 10% | 2,146 | -17% | | | |

The reduction in voucher/invoice processing year to year is due to more strategic sourcing, District-wide combined purchases, and efficiencies gained through combined invoices by vendor for purchases being made for items such as computers, furniture and capital items.

A fiscal year comparison for the month of September noted the percentage of total invoices paid in 60 days or less decreased by 5% from 93% in FY 2011 to 88% in FY 2012. This increase delay in processing invoices is primarily due to the procedural changes such as increased strategic sourcing and district wide combined purchases. Business Services is continuously looking for ways to improve processes and make more efficient use of the system while insuring timely receipt and payment of invoices. In addition, focus has been on more enhanced accountability, proficiency, and management oversight.
