Current policy prohibits students from earning an AGS after a higher degree; even before this policy, it was rare

FY2009 – FY2017: Multiple Degree Earners by Degree Type

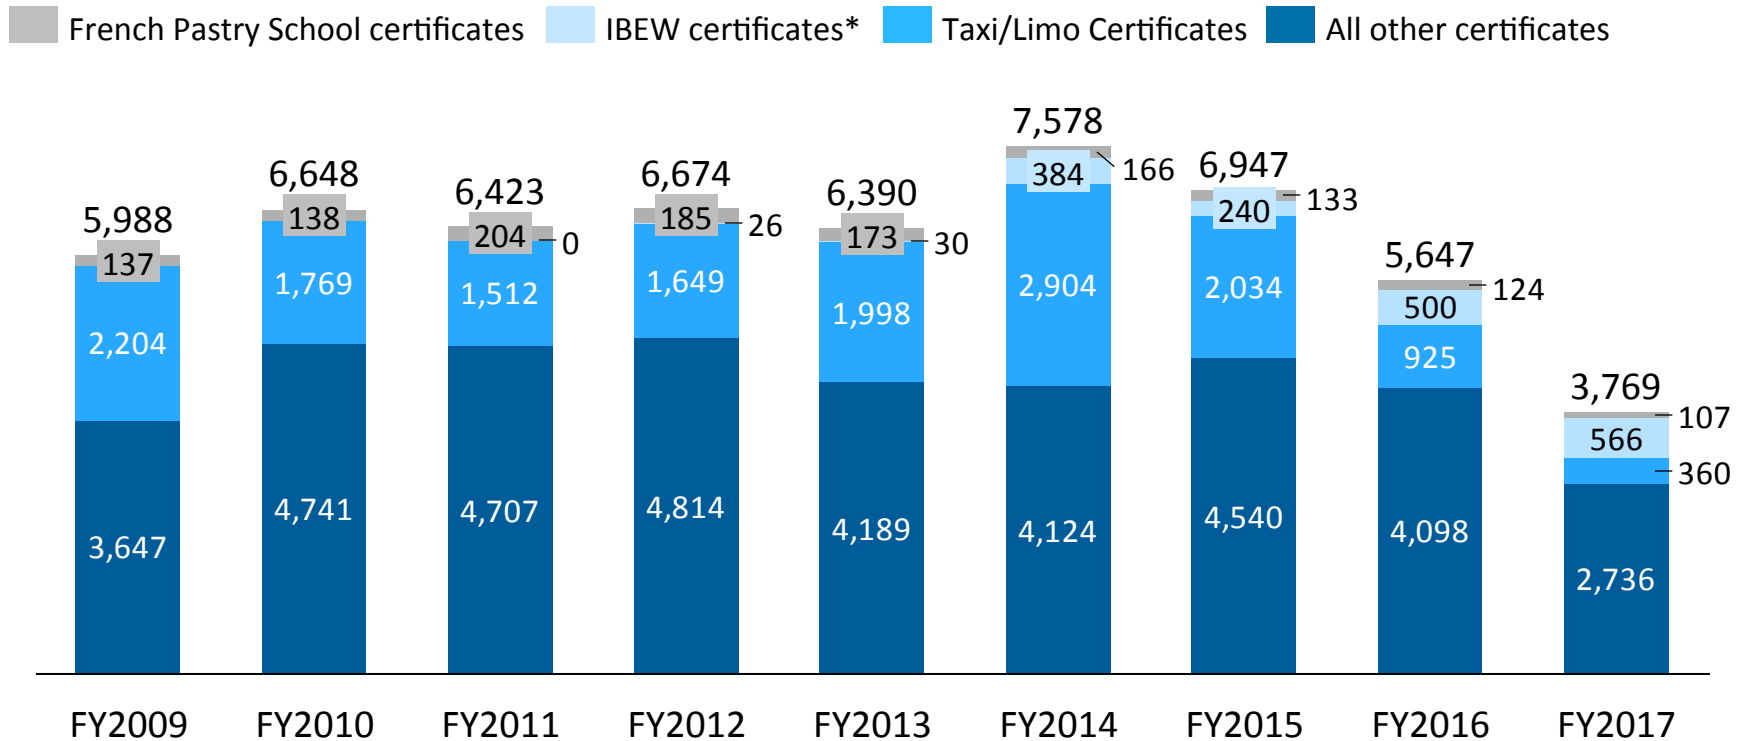

Notes

- Our policy allows an AAS to be earned before or after an AGS.
- In cases where a student earned an AGS after completing a higher degree, these degrees were awarded before City Colleges had an explicit policy outlining this practice.
- The AAS is career-specific. If/ when a student chooses to switch careers, we would expect them to earn an additional degree.
