BOARD OF TRUSTEES OF COMMUNITY COLLEGE DISTRICT NO. 508
COUNTY OF COOK AND STATE OF ILLINOIS

PROGRAM CURRICULAR SERVICES FOR NURSING STUDENTS
ATI ENGAGE OPTIMAL BUNDLE WITH SWIFT RIVER
ASSESSMENT TECHNOLOGIES INSTITUTE, LLC (ATI)
MALCOLM X COLLEGE
SCHOOL OF NURSING

THE CHANCELLOR RECOMMENDS:
that the Board of Trustees authorizes the Chair, upon final approval of the General Counsel of the legal form of such agreement, to exercise an agreement with Assessment Technologies Institute, LLC for All Engage Optimal Bundle with Swift River program curricular services for the students in the Associate Degree in Nursing Program and the Advanced Certificate in Practical Nursing Program for the period from November 5, 2026, through June 30, 2029, at a total cost not to exceed $2,650,000.00 for the term of the agreement.

VENDOR: Assessment Technologies Institute, LLC
1161 Overbrook Road
Leawood, Kansas 66211

USERS: Malcolm X College

TERM: The term of the purchase shall begin on November 5, 2026, and shall end on June 30, 2029.

SCOPE OF SERVICES:
Assessment Technologies Institute (ATI) will provide the City Colleges of Chicago (CCC) School of Nursing with the ATI Engage Optimal Bundle with Swift River, ATI's most comprehensive nursing education solution for RN, PN, and Bridge students. The ATI Engage Optimal Bundle with Swift River provides an integrated suite of curriculum, assessment, remediation, clinical preparation, simulation, NCLEX readiness, faculty development, analytics, and program-support resources designed to support students throughout the nursing education continuum.

The complete Bundle provides individualized, data-driven learning and assessment resources that reinforce nursing knowledge, clinical judgment, skills development, remediation, and practice readiness. The platform incorporates ATI's comprehensive assessment and review of resources with its expanded Engage® Series, immersive clinical learning, and simulation, and structured NCLEX preparation. These resources are aligned with contemporary nursing practice and the Next

Generation NCLEX (NGN) framework and provide faculty with actionable student and cohort performance data to inform instruction, remediation, progression, and program outcomes.

The Bundle includes, but is not limited to, the following:

- **ATI Comprehensive Assessment and Review Program (Engage)**, including NurseLogic®, Learning System, Content Mastery Series, Focused Review®, Review Modules, Custom Assessment Builder, Comprehensive Predictor®, Critical Thinking Assessments, and other individualized assessment and remediation resources.
- **ATI Engage® Series**, providing interactive, multimedia-rich curriculum and learning resources across the nursing curriculum. Current content areas include Fundamentals, Community & Public Health, Mental Health, Adult Medical-Surgical, Maternal, Newborn & Women's Health, Pediatrics, Pharmacology, and Pathophysiology, as well as Nursing Concepts and other available Engage content areas.
- **Clinical preparation and practice-readiness resources**, including Skills Modules, Video Case Studies, Real Life® Clinical Reasoning Scenarios, Nurse's Touch®, Civility Mentor, EHR Tutor, HealthAssess, Dosage Calculation and Safe Medication Administration, Pharmacology Made Easy, and other applicable ATI resources designed to support preparation for clinical practice.
- **Swift River Simulations 2.0,** provides access to more than 600 virtual clinical simulation scenarios across major clinical areas. These simulations provide opportunities for students to apply nursing knowledge in realistic patient-care situations while developing clinical judgment, prioritization, delegation, analytical thinking, and clinical decision-making skills.
- **NCLEX preparation and readiness resources**, including ATI Capstone Content Review™, Comprehensive/Customized Live Review, Virtual-ATI® (VATI), Comprehensive Predictor®, BoardVitals®, and other ATI-supported NCLEX preparation resources designed to support students' transition from nursing education to licensure examination preparation.
- **Digital and personalized learning resources**, including the Flashcards Hub and Claire AI®-supported learning features embedded within applicable ATI solutions. These resources provide students with individualized learning support, explanations, remediation, reinforcement, and opportunities for additional practice based on identified learning needs.
- **Faculty and program support,** including ATI Academy™, faculty training and professional development, implementation consultation, program analytics, Strategic Account Manager and Program Manager support, and ongoing data-driven Insight Reviews. These services provide faculty and program leadership with information to monitor resource utilization, evaluate student performance, assess program outcomes, and identify opportunities for continuous improvement.

Programmatic Value

Through the ATI Optimal Bundle with Swift River, CCC School of Nursing will maintain access to ATI's comprehensive and evolving suite of nursing education resources within a unified learning environment. The Bundle supports curriculum delivery, student assessment, individualized

remediation, clinical judgment development, virtual simulation, clinical preparation, faculty development, student progression, and NCLEX readiness across the RN, PN, and Bridge programs.

The comprehensive nature of the ATI Engage Optimal Bundle with Swift River allows ATI resources to be integrated throughout the nursing curriculum rather than being limited to a single course or content area. The inclusion of Engage content across Fundamentals, Community & Public Health, Mental Health, Adult Medical-Surgical, Maternal, Newborn & Women's Health, Pediatrics, Pharmacology, and Pathophysiology provides broad curricular coverage and supports consistent access to interactive learning resources across the students' academic progression.

The addition of Swift River Simulations 2.0 expands the program's virtual clinical learning opportunities and provides students with additional opportunities to practice clinical judgment and decision-making in simulated patient-care environments.

Faculty and Student Support
The Complete ATI Engage Optimal Bundle with Swift River also provides faculty with professional development, implementation support, program analytics, and ongoing consultation. These resources support faculty in integrating ATI products into existing courses and using assessment and performance data to identify student learning needs and inform remediation.

For students, the combination of instructional content, assessment, remediation, simulation, personalized learning resources, and NCLEX preparation provides a coordinated set of resources that can be used throughout the nursing program and during preparation for licensure.

Approval of the ATI Complete ATI Engage Optimal Bundle with Swift River for RN, PN, and LPN to RN Bridge Programs will provide CCC School of Nursing with continued access to a comprehensive suite of nursing education and student-support resources through a unified platform. The ATI Engage Optimal Bundle with Swift River consolidates curriculum resources, assessment, remediation, clinical preparation, virtual simulation, personalized learning, faculty support, program analytics, and NCLEX preparation into an integrated solution.

The proposed purchase supports the School of Nursing's ongoing efforts to provide students with consistent educational resources, strengthen clinical judgment and application of nursing knowledge, support student progression, and prepare graduates for entry into professional nursing practice and the NCLEX licensure examination.

BENEFIT TO CITY COLLEGES OF CHICAGO:
The City Colleges of Chicago School of Nursing Administration, Curriculum Committee, and Nursing Faculty have determined that ATI's All Engage Bundle Package—consisting of ATI CARP®, Virtual-ATI®, and the 3-Day NCLEX Review—will provide a comprehensive and continuous pathway for incoming PN, RN, and LPN-to-RN Bridge nursing students. The package will support students throughout their nursing education and transition to licensure by identifying knowledge gaps, providing targeted

remediation and review, strengthening NCLEX preparation and clinical-judgment skills, and supporting readiness for the NCLEX examination. These resources will complement the School of Nursing's blended learning environment by providing students with structured, individualized tools and ongoing support as they progress toward graduation and licensure. This integrated approach will help students address areas of academic need, strengthen their preparation for the NCLEX, and support a more structured transition from nursing education to professional licensure.

As our nursing cohorts continue to off-board and prepare to sit for their NGN NCLEX-RN and NCLEX-PN licensure examinations, we are confident that students have been adequately prepared with products that meet or exceed industry standards. The ATI suite of curricular support services are industry leaders in synchronistic and asynchronistic teaching and learning modalities. Use of the ATI comprehensive RN and PN nursing curriculum have aided our program in the attainment of the nationally recognized ACEN accreditation through the year 2033. As well as playing an important and sustained role in outstanding board pass rates that consistently meet or exceed national averages for both programs.

The ATI Engage Optimal Bundle with Swift River will provide exceptional support in maintaining a highly competitive nursing education and continue to elevate student success metrics, enhance graduation placement and retention rates, and maintain the City Colleges of Chcago Malcolm X College School of Nursing prestige.

VENDOR SELECTION CRITERIA:
Pursuant to State law, all contracts for the purchase and delivery of data processing equipment, software and services are exempt from the District's competitive bidding requirements.

MBE/WBE COMPLIANCE:
The Office of Procurement Services has reviewed the proposed compliance plan and recommends a full waiver of the Board Approved MBE/WBE Contract Participation Plan due to the nature of the agreement (software assessment tool) and the absence of subcontracting opportunities.

GENERAL CONDITIONS:
Inspector General – It shall be the duty of each party to the agreement to cooperate with the Inspector General for City Colleges of Chicago in any investigation conducted pursuant to the Inspector General's authority under Article 2, Section 2.7.4(b) of the Board Bylaws.

Ethics – It shall be the duty of each party to the agreement to comply with the applicable provisions of the Board's Ethics Policy adopted January 7, 1993, and as amended by the Board.

Contingent Liability – Pursuant to Section 7-14 of the Illinois Public Community College Act, all agreements authorized herein shall contain a clause that any expenditure beyond the current fiscal year is subject to appropriation in the subsequent fiscal year.
